Subject: RE: Updated Version of Dewey Burdock Briefing Documents

Thanks, Douglas! I did a quick review of this and definitely don't have any comments on the content given my limited knowledge at this point. I did notice a few pagination/spacing issues that probably resulted from changes you just made if you want to check that. Otherwise, please go ahead and distribute for tomorrow's meeting. Thanks for checking! I hope to be more useful on this topic soon!

Subject: Updated Version of Dewey Burdock Briefing Documents
Importance: High

Sarah: Valois and Lucita updated the briefing document you received earlier to show: 1) changes (in red) that reflect the impact of last week's ruling by the NRC's Atomic Safety and Licensing Board; 2) an attached legal brief that documents ORC's analysis of this ruling and how it informs these changes.

I would be happy to send this on to Darcy and others attending tomorrow's meeting, but wanted to give you a chance to review it. We will also have copies of our projected timeline and color maps to refer to. These have not changed since our last briefing.

Thanks,

Douglas K. Minter
